

I can be an artist and make art!

Drawing workshop (basics I) Learn and practice a variety of drawing techniques.

12.05/ 19.05. 2018 2-7pm

**Create your own art work to enjoy at home and show your family and friends!
We guide you through the process of making an art work during the
weekend workshop**

KIMGO Studios Berlin - Prenzlauer Berg

Concept

Each course begins with a theoretical introduction to the subject. Get inspired and activate your creativity! In an intensive work phase, you can then develop and implement your ideas with the guidance of our professional instructors. You will learn how to use the materials and tools and develop the basic skills for creation.

At the end of each session you can react and talk about your work and the further development of ideas with the other students. The evening will end with snacks and drinks together. This gives space for ideas to evolve, to exchange and to be inspired. Learn how to talk about and present your work.

KIMGO Studios is a space for workshops, learning and developing skills for creation, free thinking, idea expression and discussion.

Our purpose

KIMGO Studios is an artistic production space where we host workshops to develop creative techniques and synthetic thinking.

Art & Design Techniques

Our art techniques workshops give participants the opportunity to learn from experienced arts and design professionals, to experiment with materials, to conceptualize a project or simply learn intuitively and to produce an experimental artwork which can be taken home.

About the artists

The artist Jinran Kim is working as a visual artist in Berlin since more than 20 years. She has exhibited internationally and across Germany including solo and group shows in Paris, Tokyo, Seoul, Hamburg, Heidelberg, Berlin and much more. Jinran also has a degree in arts education with teaching experience in Korea and Germany. As head of the studio, Jinran Kim also invites other specialized professionals to teach their techniques.
